Key Insights & Recommendations

97.46% drop-off from Lead to Customer — the critical bottleneck

Referral drives 42% of revenue despite being only the 4th largest traffic source

Desktop generates 96% of revenue — mobile traffic rarely converts

United States drives 94% of revenue, but traffic is more globally spread

Session peak (Nov) and revenue peak (April) don't align — seasonality affects visits and purchases differently

Mean revenue (\$133.74) is far above median (\$49.45) — a small number of large orders skew the average
